DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

1. Applicant(s) is(are) reminded of the proper content of an abstract of the disclosure.

The abstract should not refer to purported merits (**low cost**) or speculative applications of the invention and should not compare the invention with the prior art. Correction is required.

2. Applicant(s) is(are) reminded of the proper language and format for an abstract of the disclosure.

3. The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed **150 words in length** since the space provided for the abstract on the computer tape used by the printer is limited. Correction is required. See MPEP § 608.01(b).

4. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed. E.g., "Low Power inductiveless dc-dc regulator with capacitive charging/discharging."

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: No prior art uncovered anticipates or renders obvious applicant(s) claimed switch capacitor circuitry and method including a diode circuit comprising a first diode and a second diode connected in series at a diode junction point, said diode circuit being connected in parallel with said output circuit; wherein a load capacitance is charged via a flying capacitance and said second diode when said first switch is ON and said second switch is OFF, and said load capacitance is discharged via said first diode and said flying capacitance when said first switch is OFF and said second switch is ON.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2838

Allowable Subject Matter

1. Claims 1-37 are allowable over the prior art of record.
